(P.T.O)

REMARKS

A) Sample No. (s) 1 is/are potable / chemically fit for drinking purpose on the basis of analysed parameters only.

However, this / these water source/s can be used for drinking purpose only after proper treatment, disinfection and ascertaining it's bacteriological quality frequently or regularly.

B) Sample No. (s) — Contains —

However, if there is no any other alternate source available nearby then this / these water Source/s can be used for drinking purpose only after proper treatment, disinfection and ascertaining it's bacteriological quality frequently or regularly.

C) Sample No. (s) — Contains —

Hence, this / these water Sources is/ are chemically non-potable / unfit for drinking purpose on the basis of analysed parameters only.
